

I am writing to oppose giving priority of LPFM stations over current FM stations. I currently listen to a national FM station that is heard on an FM translator. The station, KLOVE, provides a valuable service to my family on a daily basis. KLOVE gives us an opportunity to listen to the radio without concern about questionable content, bad language, etc. There is no local station that provides us with the same type of music and we do not want it to be in jeopardy due to replacement by an LPFM station. If it were to be displaced by an LPFM station, I believe there would be an adverse effect on our community. I personally know dozens of other families in my area who listen to KLOVE and it gives them encouragement throughout the day as well as a sense of community. The programming offered on KLOVE is in the best interest of the public because it encourages and promotes good values and upright, moral behavior. It helps us be better citizens, parents, spouses, and neighbors. Please do not give priority to an LPFM station and allow the potential for this important national station to be displaced in our area.
